(Chorus) Show time, baby!

DOING SCIENCE! Doing science! Doing science! Makin' things and breakin' things. Doing science! Doing science! Doing science! Makin' things and breakin' things down! Chemicals inside the test tubes, then you mix 'em all up! Doing science! Doing science! Doing science! Oh-oh-oh! Then you take some switches and come circuit boards and you wire them up-up-up! Doing science! Doing science! Doing science! Oh-oh-oh! Science will save the day! Science, let's shout hooray! The world gets better every day because of science! Science will save the day! Science, let's shout hooray! The world gets better every day because of science! Doing science! Doing science! Doing science! Makin' things and breakin' things. Doing science! Doing science! Doing science! Makin' things and breakin' things down! Now it's time to take a reading and then we write it all down-ow-ow-own! Doing science! Doing science! Doing science! Oh-oh-oh! Next you put a bacteria under the microscope... and then you go to lunch! Doing science! Doing science! Doing science! Oh-oh-oh! - Science is a systematic enterprise that organizes knowledge right before your eyes. You can test the explanations and predictions about...the universe, the inner-space and substance without! Science also refers to the type of knowledge that can be rationally explained and reliably applied. It's like a philosophy - kind of. (chorus) Bling bling boo-ya. SCIENCE!

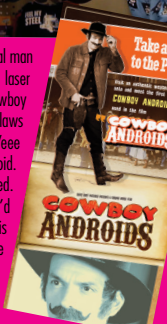

FEEL MY STEEL! Feel my Steel. Keep it Real. Up all night. Wicked Tight! Playing a show one Saturday night, we rocked the house and we rocked it right. The Show was over and we hit the road. In the Battletram it was me and the bros. Jimmy and Bones and Crash and Me. Stereo DJ was little Ricky. I was driving upfront with my man Jimmy. Driving and Driving 'til I couldn't see. Jimmy said pull over and I said "No way!" but I started getting tired so I said, "OK". Saw the next exit and I made a hard right. It was pitch black dark in the middle of the night. Just up ahead we saw some lights. Mega truck stop, it was outta sight! So we parked the Tram in the parking lot, we all jumped out to see what they got. Walked in the door, what did I see? A trucker cap rack staring back at me! Trucker caps on the rack? I said "Boo Ya, Baby ...Give my cat a bath!" Well, the first one I saw said "Feel my steel", next one I saw said, "Keep it real." Then I saw one said, "Up All Night." The best one of all said, "Wicked Tight!" (Chorus) Well we all got hats and we all got snacks, went back to the bottle tram and took some naps. The moral of the story that you need to know is you gotta get some sleep after you play a show. But not before you stop and get some late night snacks - like Chocolate Ho Cakes and Cracker Jacks. Flamin' Hot Cheetos and Pudding Paks. Dig 'Em Smacks and Pringle Stacks. Slim Jim Jerkys and Battle Caps. Sour Patch Kids and JobleBlats (what?) - Cool Ranch Doritos and Chili. Reese's Peanut Butter Cakes. Slushis. Fish sandwiches and Potato Wedges. Hot Dogs and Pizza Pockets. -AHem! Oh yeah - Well, truck Stop snacks will make you fat. Best to spend your money on stuff that lasts. Like Indian Jewelry and Trucker caps - OH YEAH!

COBRAMAN! Gold Coins and platinum schemes, I'm thinking of a master plan to take out your whole team! You Betcha! I'm coming at ya with some lotions and crèmes, I'm gonna c-c-c-catch ya! You Betcha? You Betcha? I'm coming back to get ya. Cobraman! Cobraman! Cobraman! Comin' at ya like a Cobra! Namaste! Namaste! Namaste! He's A Cobraman! That's right, he's comin' at ya like a Cobra! Cobraman! Cobraman! Cobraman! Comin' at ya like a Cobra! Namaste! Namaste! Namaste! He's A Cobraman! I'm gonna bite ya like I told ya! I wanna tell you my name! My name is Karl and it's spelled with a K. Quality Maxin' every day! I'm shoutin' jams on the 5 Freeway! Oh Yeah! Listen up Listen up wakey wakey. Snakey snakey eggs and bakery. Roach Motel with my Frosted Flakey. I'm sayin hey to may snakey to my snakey saying hey! Keep me in a cage for the rage. Black lights come out on the stage. Yo! Yeah Oh Yeah! Yeah Oh Yeah! Ten thousand plastic spoons, bring to life the human cartoons! Let me say it now! Yeah Oh Yeah! Yeah Oh Yeah! Cobra fangs now! (Chorus) And my Cobra fangs go deep. So deep, it put you right to sleep. You know what I mean.

COWBOY ANDROID! He was a metal man with a quick draw hand. With his trusty laser pistol, he'd protect the wild land. The Cowboy Android Sheriff, he was feared by all. Outlaws scattered when they heard his call. "Yeee Haaaw" (Chorus) Cowboy, Cowboy Android. He never had a reason for a noble steed. With his Metal Legs of lightning, he'd outrun a tumbleweed. Rumors of his legend, spreading far and wide. Of the 'Slingers that he blasted, who had shriveled up and died.

DUDE THEME! "I summon the Dude!"
Long ago, before days or years were counted, upon the peak of the most remote and misty mountain, there sat a mystic crystal egg. For untold ages it lay undisturbed, waiting. Until under the light of the fullest moon it cracked! Rays of bright, purple energy emerged in all directions. Out flew a winged creature composed of fire, wind and lightening. It traveled through space and time, reaching the very center of the cosmos itself. It was here it became THE DUDE!
"I summon the Dude!"
